HON. A. K. McCLURE, Philadelphia, Solicitor.

The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following ports, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Cheau	1,200,000
Shanghai	1,006,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree renumerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent*, and in the Philadelphia *North American, Press, Ledger, Inquirer, Age, Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia.

Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or any thing like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtueus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manuiacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES TAOMPSON.

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it.

Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eigth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. JACKSON on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 per bottle; Or, a half dozen for $5.

Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the

LETTER HEADS AND BILL HEADS, and ENVELOPES for business men printed in the best style of the art, at THE GAZETTE JOB OFFICE.

SLIP BILLS, PROGRAMMES POSTERS, and all kinds of PLAIN AND FANCY JOB PRINTING, done with neatness and despatch, at THE GAZETTE office.

THE following is from the New York *Methodist*. We have no disposition to make any comment, says the Baltimore *Episcopal Methodist*, and lay it before our readers as we find it, asking them only to remember that it is an extract from a published sermon by the leader of New England Methodism, and that Mr. Haven confidently claims Dr. Eddy as a co-laborator and Charles St. Church in Baltimore as the chosen scene for the beginning of the great reformation in Maryland; a reformation in which a mulatto complexion is to be the sign and seal of the invisible grace. The first part of the extract will be read with disgust; the last paragraph with horror:

THE REV. GILBERT HAVEN'S SERMON.

We promised in our last to give a fuller specimen from the sermon of the editor of *Zion's Herald* that was contained in our first extract. We do this in justice to Mr. Haven, inasmuch as we characterized the entire passage as "wild and foolish talk:"

"We shall be attracted to this hue because it is one of God's creatures, and a beautiful one too; because, chiefly, we have most wickedly loathed and scorned it. He will have his revenge, and will yet compel us to discern the loveliness of this most abhorred virtue, and to become enamored of it. The song of songs may have a more literal fulfilment than it has ever confessedly had in America; and the illegal but divinely implanted admiration of Southern Solomons for black but comely maidens be proudly acknowledged and honorably gratified in the life of Northern and Southern gentlemen.

"But this law rests on no mere quip of the fancy, nor is it a rebound of a vehement passion, as wrongfully right as it had been wrongfully wrong. It is the grand under tone of all marriage. It is the Creator's mode of compelling the race to overleap the narrow boundaries of families and tribes, into white blood, so called, invariably degenerates.

'Not like with like, be like with difference,

is the law of marriage. The light complexioned turn to the dark, and the dark to the light, as day to night and night to day. The tall seek the short and the short the tall; the same the large and the large the small. Opposite temperaments also thus incline to each other. Bishop Morris says that he can select husbands and their wives in a large company by this law of like and difference. * * * * *

Dr. Holmes's ten-lovers dangling in silken noose on the fatal trap of Cupid, being asked the color of the eyes that caused their ruin:

"'And ten accused the "darker hue."'

The last five of these victims were undoubtedly blue-eyed swains, and the first of brown complexion.

"By this law only will yellow haired Germany and dark-skinned France become one, Only thus will the mediæval feud between light-eyed England and dark-eyed Ireland come to an end. Let their youths follow their instincts, and the differences that now seem barriers of eternity will become magnets of eternity. Thus, too, will our dividings cease. The lightest and darkest of the children of Adam and Noah are divinely planted together in this land that they may, by obeying this law which God has planted, work out the perfect oneness of the race of man.

"Already, too, our romancers and poets, the imaginative forefiyers of the slower-footed fact, are putting this strange future into their fascinating tales, and all the greedy crowd of novel-readers are finding their richest morsels flavored with this celestial truth. The stage makes an octoroon a heroine, and wins thousands to the admiration of a color on the boards which they still falsely profess to detest in the parlor. Mrs. Child, in her 'Romance of the Republic,' gives a vivid portraiture of the wrongs and rights of this married life and love, in conflict with the curse of caste. Anna Dickinson waxes yet bolder, and, in her 'What Answer?' shows how inevitable, how beautiful is this true affection, despite, nay, including this difference of color. And the hour is not far off when the white-hued husband shall boast of the dusky beauty of his wife, and the Caucasian wife shall admire the sun-kissed countenance of her husband as deeply and as unconscious of the present ruling abhorrence as is his admiration of her lighter tint. Desdemona was as deeply fascinated by Othello's visage as was he by Desdemona's.—That hour is not coming—it already is. Not a few of these marriages which God has made, and whose validity man, in a few instances, has reluctantly acknowledged, are already filling homes with happiness, and both prophesying and leading the way to the future unity and blessedness of America. Amalgamation is God's word, declaring the oneness of man, and ordaining its universal recognition.—Who art thou that fightest against God?"

The passage in which reference is made to the "complexion of our Lord," is the following: "But equality at the polls is not the only work laid upon the coming government. There must be such a disposition of its patronage, such a steadfast expression of its conviction, such an employment of its influence, as will tend to the abolition of the whole mass of prejudice that still defies the national heart. I am aware that this evil cannot be utterly abolished by any enactments. The leprosy lies deep within. It dwells in our churches, in our souls, in our education, in society. It still makes us look at a face with repulsion which is the very complexion of the mother of of our Lord—nay, of the Lord himself,

*The words omitted are too indecent for us to copy.—*Epis. Methodist.*

NO BEAUX ANYWHERE.

No beaux! Absolutely no beaux! Well young ladies, stop and consider, if, after all, you yourself have not pronounced the sentence of banishment.

"We? We banish them? Good gracious! Is it not for them we have devised all this elaboration of adornment? We, indeed! Were we not for weeks, before we came to these odious mountains, where men are as scarce as French hair dressers, closeted with our dressmarkers and milliners to produce these bewitching 'suits,' long and short, for morning and evening, out-door and in-door wear?—Have we not cool dresses and warm dresses; dresses for rain, dresses for sunshine, dresses for neutral weather, with ribbons, gloves, sashes, parasols, hats and fans to 'match,' to the minuest shade? For whom should we take all that trouble but for the beaux? And how are we responsible for their disgusting absence?"

Listen, my dears, for in that which you have just said lies your offence. Can damsels thus arrayed walk in the woods, climb the mountains (except in poetry?) Can they take even an ordinary, mild walk, without mortal terror of periling their millinery?—Must they not, therefore, "ride," morning, afternoon and evening, everywhere, to the delectation of the stable keepers, and the consequent pecuniary depletion of the "beaux?" These beaux, whose fathers may be rich, but whose sons have yet to fill their individual coffers; these beaux, who have just so much to expend when they get away from a summer holiday, and who do not desire to pour it all into the pockets of the stable-keepers; these beaux, who can get vastly more fun out of their purses, and make them last longer, with a party of "the fellows"—this is the reason that, with rare exceptions, you have to throw away these ravishing toilettes on your own sex, when you play croquet, or sit on the piazza, dreaming of the "coming man."

My dears, he *won't* come! He knows too much. He has seen his sister's millinery and mantua-maker bills, and heard the family discussion thereon; and though he acknowledges your fascinations even through all the absurd toggery you are doomed by fashion's slavery to have and to wear, he has yet to make the fortune to enable him to foot his angel's bills. So he runs away from you, discreetly; runs off fishing, or gunning with the "fellows," and, wiser than you, comes home brown, hale and hearty for the winter months, instead of perspiring at your side in tight boots and yellow kids.

Do you begin to understand? Now, my dear, if you have been ushered into the world in coach and six, till your feet and hands have become paralyzed for want of use, that is your *misfortune*, and your fault. Because that necessitates a rich husband. And as there are very few rich *young* husbands, you will have to bid good bye to your girlish ideal, and marry the bold-headed, gouty Mr. Smith, who was born at the same time as your own father. This, my dears, you will have to do, or face your nightmare, *single blessedness*.

I have looked at you playing croquet, without a coat-tail among you; I have seen you driving yourself out in your pretty little phaetons; and thought you put a brave face on it. I knew very well what is going on under that gay little sash of yours; and I think it is a pitty that you should have been brought up to many artificial wants, that your *heart* must go hungry in life's spring-time because of them.

My dears *I* never lacked beaux at your age. But a walk in the woods, or in the city either, involved no expense to *my* beaux. I could climb a fence, where there was no gate, or where there was either; I was not afraid of dew or rain because my dress was simple. My gifts were not diamonds, but flowers, or books. *My* mother would not have allowed me to ride with gentlemen, had they asked.—When they came to spend the evening our tray of refreshments did not involve a "French cook."

So you see my dear, though I had no silk dresses, I had plenty of beaux, and a gay heart; and I enjoyed a sail with an old sun-bonnet over my curls, or a moonlight ramble with a merry party, much better than you do "the German;" and half an hour was sufficient warning for me to "dress" for any kind of party—in doors or out—because, unlike you, I was not bothered to choose from twenty dresses which to wear; and I will give you leave to ask of my beaux, who are now granfathers if I was not able at that time to settle *their* accounts! And it is because I had such a good time that I feel vexed that your youth and prettiness should so often go a-begging—through no fault of yours; and you may show this to your mothers, and tell them I say so.

Sometimes a girl says no to an offer, when it is as plain as the nose on her face that she means yes. The best way to judge whether she is in earnest or not, is to look straight into her eyes and never mind her noes.

An Irishman who was asked to furnish proof of his marrige, took off his hat and exhibited a scar on his head. "Here" said he, "is my marriage certificate. That's Judy's mark."

A man who was shooting "for fun" in Colorado, recently shot an indivdual who he says, unfortunately popped his head round a corner and struck the bullet.

When is a woman called an old maid? When she's a virgin (verging) near forty.

HOUSE AND FARM.

The culture of Trees.—The recent report of the U. S. Agricultural Department contains a valuable essay, contributed by J. M. Edmunds, late Commissioner of the Land Office. Great evils will result to the country, it is predicted, unless the axe of the woodman is restrained. It is asserted that, except in the mountain regions, nearly the entire surface from the Atlantic to the Mississippi has been despoiled of its primeval forest growth, and that nowhere have flat arable lands been allowed to reproduce the forest growth. Three-fourths of the original store of timber, it is believed, have already been consumed. The untimbered surface of the plains between the Mississippi and the Pacific amounts to fourteen hundrod thousand square miles, and it is asserted that, by a little artificial effort, forests may be gradually extended over this large area. Experiments thus far made have proved successful. Trees to the number of millions have been produced from the seed to almost every forest species by the unaided efforts of a single association in Nebraska.

Prepared Seasoning.—A writer on cookery gives the following recipe for preparing a delicious seasoning. Place in a paper bag one-quarter of an ounce of thyme, one-quarter ounce of bay leaf, one-eight ounce of majoram, and one-eighth ounce rosemary; put the bag into a moderately heated oven, till the herbs are dry; then mix them in a mortar with half an ounce of nutmegs, half an ounce of cloves, a quarter of an ounce of pepper, one eighth of an ounce of ceyenne pepper, pound the whole and press through a hair seive. Keep this mixture in a dry, well-corked bottle. These spices are to be used either alone or with salt added; the proportion for mixing with salt is one ounce of the mixture to four ounces of fine salt. One ounce of the spiced salt is sufficient to season three pounds of forcemeat.

Some years since a wild-goose was shot in Washington Territory, and a few grains of wheat were taken from his craw. Being very large and full, they were preserved and planted. The yield was found so great as to lead to its propagation, until this variety which is known in the territory as the "Goose wheat," has become a standard one in that section of the country. Samples of this wheat were recently sent to the Agricultural Department at Washington. Upon examining the samples at the Museum, of which there are some 2,000 varieties, the same wheat was found, being one of the samples sent from the Paris Exposition, and there.

Sheep.—As the weather grows warmer, look out for ticks, scab, and lice. We have great faith in corbolic soap, and this may be applied without fear of injury to the animals. The wool should be parted, and the solution squirted in from a bottle with a quill in the cork, or poured from an oil can with a small nozzle. If ewes yean early have a care that the lambs do not get chilled; visit the pens frequently.—Chilled lambs, apparantly past succor, may often be revived by bringing to the fire, giving warm baths, followed by friction with dry cloths, and a little mild milk punch.

A Maine man gives his method of treating balky horses: "Let me inform humane men and hostlers, and all who hold the rein, that the way to cure balky horses is to take them from the carriage, and whirl them rapidly round till they are giddy. It requires two men to accomplish this—one at the horse's tail. Don't let him step out. Hold him to the smallest possible circle. One dose will often cure him; two doses generally will; three doses are final with the worst horse that ever refused to stir."

Breeding Animals must be well fed. A quart or two of oil meal daily, or an equivalent of rye bran mixed, is good. If roots are plenty, cut up and feed four to eight quarts a day with the meal; if not, save them until just before calving, and after that, to be used until grass comes, or the rye for soiling is fit to cut.

Mares should be treated in very much the same way; a few carrots are an excellent addition to the diet, and roots and oil cake may be fed freely if care be taken that they do not induce too great laxness of the bowels; constipation is to be always guarded against in animals approaching partuition.

The disease known as glanders consists essentially of ulceration of the cartilages of the nose, distinctly developed. There is scarecely a chance of recovery when once fully seated, and, as the disease is contagious, there is little inducement to keep the animal.

Red Ants.—Wash and wipe thoroughly your safes, cupboards, &c.; then sprinkle on salt, and rub it well into the wood, not neglecting the cracks and crevices. This application, properly applied, will relieve you of their annoyance.

Cows.—Prepare roomy, loose boxes for cows to calve in, and litter them well. The cows may be kept tied until the time actually comes, when it is best to give them the freedom of the box.

To Restore Milk.—When milk has become turned by heat, it can be made sweet again and perfectly restored by mixing with it a small quantity of carbonate of magnesia.

To soften hard water.—Dissolve two tablespoonfuls of quick lime in nine quarts of water, and stir this well into a barrel of hard water, and let it stand twenty-four hours.

Forest leaves make an excellent mulch, and when rotted an excellent manure.

Good fences pay better than the lawsuits with neighbors.

HON. A. K. McCLURE, Philadelphia, Solicitor.

The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following ports, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Chean	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree remunerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald*, *Tribune*, *World*, *Times*, *Post*, *Express*, *Independent*, and in the Philadelphia *North American*, *Press*, *Ledger*, *Inquirer*, *Age*, *Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia.

Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullnes of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts, The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtueus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitrs, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON.

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,
J. H. KENNARD,
Eigth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. JACKSON on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 per bottle; Or, a half dozen for $5.

Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the

THE following is from the New York *Methodist*. We have no disposition to make any comment, says the Baltimore *Episcopal Methodist*, and lay it before our readers as we find it, asking them only to remember that it is an extract from a published sermon by the leader of New England Methodism, and that Mr. Haven confidently claims Dr. Eddy as a co-laborator and Charles St. Church in Baltimore as the chosen scene for the beginning of the great reformation in Maryland: a reformation in which a mulatto complexion is to be the sign and seal of the invisible grace. The first part of the extract will be read with disgust; the last paragraph with horror:

THE REV. GILBERT HAVEN'S SERMON.

We promised in our last to give a fuller specimen from the sermon of the editor of *Zion's Herald* that was contained in our first extract. We do this in justice to Mr. Haven, inasmuch as we characterized the entire passage as "wild and foolish talk:"

"We shall be attracted to this hue because it is one of God's creatures, and a beautiful one too; because, chiefly, we have most wickedly loathed and scorned it. He will have his revenge, and will yet compel us to discern the loveliness of this most abhorred virtue, and to become enamored of it. The song of songs may have a more literal fulfilment than it has ever confessedly had in America; and the illegal but divinely implanted admiration of Southern Solomons for black but comely maidens be proudly acknowledged and honorably gratified in the life of Northern and Southern gentlemen.

"But this law rests on no mere quip of the fancy, nor is it a rebound of a vehement passion, as wrongfully right as it had been wrongfully wrong. It is the grand under tone of all marriage. It is the Creator's mode of compelling the race to overleap the narrow boundaries of families and tribes, into white blood, so called, invariably degenerates.

'Not like with like, be like with difference,

is the law of marriage. The light complexioned turn to the dark, and the dark to the light, as day to night and night to day. The tall seek the short and the short the tall; the same the large and the large the small. Opposite temperaments also thus incline to each other. Bishop Morris says that he can select husbands and their wives in a large company by this law of like and difference. * * * * * Dr. Holmes's ten-lovers dangling in silken noose on the fatal trap of Cupid, being asked the color of the eyes that caused their ruin:

"'And ten accused the "darker hue."'

The last five of these victims were undoubtedly blue-eyed swains, and the first of brown complexion.

"By this law only will yellow haired Germany and dark-skinned France become one, Only thus will the mediæval feud between light-eyed England and dark-eyed Ireland come to an end. Let their youths follow their instincts, and the differences that now seem barriers of eternity will become magnets of eternity. Thus, too, will our dividings cease. The lightest and darkest of the children of Adam and Noah are divinely planted together in this land that they may, by obeying this law which God has planted, work out the perfect oneness of the race of man.

"Already, too, our romancers and poets, the imaginative foreflyers of the slower-footed fact, are putting this strange future into their fascinating tales, and all the greedy crowd of novel-readers are finding their richest morsels flavored with this celestial truth. The stage makes an octoroon a heroine, and wins thousands to the admiration of a color on the boards which they still falsely profess to detest in the parlor. Mrs. Child, in her 'Romance of the Republic,' gives a vivid portraiture of the wrongs and rights of this married life and love, in conflict with the curse of caste. Anna Dickinson waxes yet bolder, and, in her 'What Answer?' shows how inevitable, how beautiful is this true affection, despite, nay, including this difference of color. And the hour is not far off when the white-hued husband shall boast of the dusky beauty of his wife, and the Caucasian wife shall admire the sunkissed countenance of her husband as deeply and as unconscious of the present ruling abhorrence as is his admiration of her lighter tint. Desdemona was as deeply fascinated by Othello's visage as was he by Desdemona's.—That hour is not coming—it already is. Not a few of these marriages which God has made, and whose validity man, in a few instances, has reluctantly acknowledged, are already filling homes with happiness, and both prophesying and leading the way to the future unity and blessedness of America. Amalgamation is God's word, declaring the oneness of man, and ordaining its universal recognition.—Who art thou that fightest against God?"

The passage in which reference is made to the "complexion of our Lord," is the following: "But equality at the polls is not the only work laid upon the coming government. There must be such a disposition of its patronage, such a steadfast expression of its conviction, such an employment of its influence, as will tend to the abolition of the whole mass of prejudice that still defies the national heart. I am aware that this evil cannot be utterly abolished by any enactments. The leprosy lies deep within. It dwells in our churches, in our souls, in our education, in society. It still makes us look at a face with repulsion which is the very complexion of the mother of of our Lord—nay, of the Lord himself,

*The words omitted are too indecent for us to copy.—*Epis. Methodist.*

NO BEAUX ANYWHERE.

No beaux! Absolutely no beaux! Well young ladies, stop and consider, if, after all, you yourself have not pronounced the sentence of banishment.

"We? We banish them? Good gracious! Is it not for them we have devised all this elaboration of adornment? We, indeed! Were we not for weeks, before we came to these odious mountains, where men are as scarce as French hair dressers, closeted with our dressmarkers and milliners to produce these bewitching 'suits,' long and short, for morning and evening, out-door and in-door wear?—Have we not cool dresses and warm dresses; dresses for rain, dresses for sunshine, dresses for neutral weather, with ribbons, gloves, sashes, parasols, hats and fans to 'match,' to the minuest shade? For whom should we take all that trouble but for the beaux? And how are we responsible for their disgusting absence?"

Listen, my dears, for in that which you have just said lies your offence. Can damsels thus arrayed walk in the woods, climb the mountains (except in poetry?) Can they take even an ordinary, mild walk, without mortal terror of periling their millinery?—Must they not, therefore, "ride," morning, afternoon and evening, everywhere, to the delectation of the stable keepers, and the consequent pecuniary depletion of the "beaux?" These beaux, whose fathers may be rich, but whose sons have yet to fill their individual coffers; these beaux, who have just so much to expend when they get away from a summer holiday, and who do not desire to pour it all into the pockets of the stable-keepers; these beaux, who can get vastly more fun out of their purses, and make them last longer, with a party of "the fellows"—this is the reason that, with rare exceptions, you have to throw away these ravishing toilettes on your own sex, when you play croquet, or sit on the piazza, dreaming of the "coming man."

My dears, he *won't* come! He knows too much. He has seen his sister's millinery and mantua-maker bills, and heard the family discussion thereon; and though he acknowledges your fascinations even through all the absurd toggery you are doomed by fashion's slavery to have and to wear, he has yet to make the fortune to enable him to foot his angel's bills. So he runs away from you, discreetly; runs off fishing, or gunning with the "fellows," and, wiser than you, comes home brown, hale and hearty for the winter months, instead of perspiring at your side in tight boots and yellow kids.

Do you begin to understand? Now, my dear, if you have been ushered into the world in coach and six, till your feet and hands have become paralyzed for want of use, that is your *misfortune*, and your fault. Because that necessitates a rich husband. And as there are very few rich *young* husbands, you will have to bid good bye to your girlish ideal, and marry the bold-headed, gouty Mr. Smith, who was born at the same time as your own father. This, my dears, you will have to do, or face your nightmare, *single blessedness*.

I have looked at you playing croquet, without a coat-tail among you; I have seen you driving yourself out in your pretty little phaetons; and thought you put a brave face on it. I knew very well what is going on under that gay little sash of yours; and I think it is a pitty that you should have been brought up to many artificial wants, that your *heart* must go hungry in life's spring-time because of them.

My dears *I* never lacked beaux at your age. But a walk in the woods, or in the city either, involved no expense to *my* beaux. I could climb a fence, where there was no gate, or where there was either; I was not afraid of dew or rain because my dress was simple. My gifts were not diamonds, but flowers, or books. *My* mother would not have allowed me to ride with gentlemen, had they asked.—When they came to spend the evening our tray of refreshments did not involve a "French cook."

So you see my dear, though I had no silk dresses, I had plenty of beaux, and a gay heart; and I enjoyed a sail with an old sun-bonnet over my curls, or a moonlight ramble with a merry party, much better than you do "the German;" and half an hour was sufficient warning for me to "dress" for any kind of party—in doors or out—because, unlike you, I was not bothered to choose from twenty dresses which to wear; and I will give you leave to ask of my beaux, who are now granfathers if I was not able at that time to settle *their* accounts! And it is because I had such a good time that I feel vexed that your youth and prettiness should so often go a-begging—through no fault of yours; and you may show this to your mothers, and tell them I say so.

Sometimes a girl says no to an offer, when it is as plain as the nose on her face that she means yes. The best way to judge whether she is in earnest or not, is to look straight into her eyes and never mind her noes.

An Irishman who was asked to furnish proof of his marrige, took off his hat and exhibited a scar on his head. "Here" said he, "is my marriage certificate. That's Judy's mark."

A man who was shooting "for fun" in Colorado, recently shot an individual who he says, unfortunately popped his head round a corner and struck the bullet.

HOUSE AND FARM.

The culture of Trees.—The recent report of the U. S. Agricultural Department contains a valuable essay, contributed by J. M. Edmunds, late Commissioner of the Land Office. Great evils will result to the country, it is predicted, unless the axe of the woodman is restrained. It is asserted that, except in the mountain regions, nearly the entire surface from the Atlantic to the Mississippi has been despoiled of its primeval forest growth, and that nowhere have flat arable lands been allowed to reproduce the forest growth. Three-fourths of the original store of timber, it is believed, have already been consumed. The untimbered surface of the plains between the Mississippi and the Pacific amounts to fourteen hundrod thousand square miles, and it is asserted that, by a little artificial effort, forests may be gradually extended over this large area. Experiments thus far made have proved successful. Trees to the number of millions have been produced from the seed to almost every forest species by the unaided efforts of a single association in Nebraska.

Prepared Seasoning.—A writer on cookery gives the following recipe for preparing a delicious seasoning. Place in a paper bag one-quarter of an ounce of thyme, one-quarter ounce of bay leaf, one-eight ounce of majoram, and one-eighth ounce rosemary; put the bag into a moderately heated oven, till the herbs are dry; then mix them in a mortar with half an ounce of nutmegs, half an ounce of cloves, a quarter of an ounce of pepper, one eighth of an ounce of ceyenne pepper, pound the whole and press through a hair seive. Keep this mixture in a dry, well-corked bottle. These spices are to be used either alone or with salt added; the proportion for mixing with salt is one ounce of the mixture to four ounces of fine salt. One ounce of the spiced salt is sufficient to season three pounds of forcemeat.

Some years since a wild-goose was shot in Washington Territory, and a few grains of wheat were taken from his craw. Being very large and full, they were preserved and planted. The yield was found so great as to lead to its propagation, until this variety which is known in the territory as the "Goose wheat," has become a standard one in that section of the country. Samples of this wheat were recently sent to the Agricultural Department at Washington. Upon examining the samples at the Museum, of which there are some 2,000 varieties, the same wheat was found, being one of the samples sent from the Paris Exposition, and

Sheep.—As the weather grows warmer, look out for ticks, scab, and lice. We have great faith in corbolic soap, and this may be applied without fear of injury to the animals. The wool should be parted, and the solution squirted in from a bottle with a quill in the cork, or poured from an oil can with a small nozzle. If ewes can early have a care that the lambs do not get chilled; visit the pens frequently.—Chilled lambs, apparantly past succor, may often be revived by bringing to the fire, giving warm baths, followed by friction with dry cloths, and a little mild milk punch.

A Maine man gives his method of treating balky horses: "Let me inform humane men and hostlers, and all who hold the rein, that the way to cure balky horses is to take them from the carriage, and whirl them rapidly round till they are giddy. It requires two men to accomplish this—one at the horse's tail. Don't let him step out. Hold him to the smallest possible circle. One dose will often cure him; two doses generally will; three doses are final with the worst horse that ever refused to stir."

Breeding Animals must be well fed. A quart or two of oil meal daily, or an equivalent of rye bran mixed, is good. If roots are plenty, cut up and feed four to eight quarts a day with the meal; if not, save them until just before calving, and after that, to be used until grass comes, or the rye for soiling is fit to cut.

Mares should be treated in very much the same way; a few carrots are an excellent addition to the diet, and roots and oil cake may be fed freely if care be taken that they do not induce too great laxness of the bowels; constipation is to be always guarded against in animals approaching partuition.

The disease known as glanders consists essentially of ulceration of the cartilages of the nose, distinctly developed. There is scarecely a chance of recovery when once fully seated, and, as the disease is contagious, there is little inducement to keep the animal.

Red Ants.—Wash and wipe thoroughly your safes, cupboards, &c.; then sprinkle on salt, and rub it well into the wood, not neglecting the cracks and crevices. This application, properly applied, will relieve you of their annoyance.

Cows.—Prepare roomy, loose boxes for cows to calve in, and litter them well. The cows may be kept tied until the time actually comes, when it is best to give

The Bedford Gazette.

Friday Morning, March 26, 1869.

STILL no vote on the Tenure of office bill, and, as a consequence, no appointments of any consequence. It is simply cruel in the President to keep the Bread-and-Butter Brigade "hanging on the tender-hooks of suspense;" but then, Mr. Grant is a stubborn man, a man of determined character, who having adopted an idea holds on to it with the tenacity of an English bull-terrier. Thus far there is not the slightest evidence of a disposition on his part to let go his hold upon the throat of the Radical party. He has made a sure thing of it, he thinks, and thinking thus, is, in dog-pit vernacular, "lying down to it and chawing at leisure." Cruel Grant.

YANKEE modesty is truly astonishing. Especially is this the case with radical and overbearing Massachusetts. Not satisfied with Boutwell and Hoar in the cabinet—with having control of the most important committees in Congress, and with forcing the appointment of J. Lathrop Motley, as minister to England, like Oliver Twist, she still cries for "more." She wants the Grecian mission, and a hundred other things. Massachusetts will *want* as long as a crumb is left to fall from the Presidential table. When will the people set to work to restrain the greedyism of fanatical New England?

THE *Inquirer* does not say a word, pro or con, on the nomination of Gen. Longstreet, by Grant, to an important office in New Orleans. Why is this? If Johnson had made a similar appointment, all the radical crew would have set up a hideous howl at the insult to "loilty." Is this Grant's method of "punishing traitors and making treason odious?" But then, we forget. The ex-rebel is a relative. That covers a "multitude of sins." We venture to say that if Jeff. Davis were a relative of the great Grant family he would get a foreign mission at once.

NEW YORK and Philadelphia papers are discussing the question of the respective honesty and morality of the New York and Pennsylvania legislatures. As they are both Radical, and therefore both naturally corrupt and dishonest, a toss of a copper would decide the question as well as the most that upon the points named it is six with one and half a dozen with the other. Both are rotten to the core.

JOHN COVODE, it is stated, has been admitted to his seat, during the contest. This is about as unblushing a case of fraud as ever was perpetrated upon a free people. Gen. Foster was clearly elected. But it seems that all that is necessary in any district where a Radical has been defeated, is to go to Congress and contest the seat. These outrages will continue as long as the Radicals find it necessary to hold the two-thirds power.

GRANT'S arbitrary attempt to cancel the pardons granted by President Johnson, has, like his attempt to run the Government machine himself, brought him to grief. His new Attorney General decided against his right to do anything of the kind, and, as a consequence, the pardoned men have had their pardons restored to them by the United States Marshal.

THE editor of the *Inquirer* sees an "increased Republican majority" in the late New Hampshire election, when in fact the majority is about one half what it was for Grant. What queer eyes the fellow must have.

THE ratification of the Fifteenth amendment, which passed the Senate, at Harrisburg, some time ago, still hangs fire in the House. The subject will be taken up in a few days, when, of course, the Radicals will ratify.

SOME innocent Republicans assert they want to give the negro a vote for the purpose of putting him out of politics. Some people think this is about the easiest way of putting him in.

NOTHING valuable has recently been drawn in Grant's gift enterprise. Reason—the refusal to repeal the tenure of office bill.

THE Legislature having abolished the Lycoming judicial district, intends trying its hand next at blotting out counties.

The President informed the Senate on Friday last, that he had approved and signed the bill for the further security of equal rights in the District of Columbia. It is, therefore, a law, and is as follows:

Be it enacted, &c., That the word "white," wherever it occurs in the laws relating to the District of Columbia, or in the charters or ordinances of the cities of Washington and Georgetown, and operates as a limitation on the right of any elector of such District, or of either of the cities, to hold any office, or to be selected and to serve as a juror, be and the same is hereby repealed; and it shall be unlawful for any person or officer to enforce or attempt to enforce, such limitation after the passage of this act.

WHEN radical editors assert that the "question of negro suffrage is being submitted to the people of the loyal States in the shape of the Fifteenth Amendment," they assert that which is most palpably false. If they were not the most hardened political sinners that ever cumbered the earth, the very thought would cause them to blush with shame. The question is not submitted to the people, but to legislatures elected by the people, who were distinctly told at the time *that this question was not an issue.* To assume, now that in demanding the ratification of the Fifteenth Amendment by the legislatures is submission of the question of negro suffrage to the people requires an effrontary that a band of free booters might well envy. It is a fraud and a cheat unparalleled.

"MAC," the Washington correspondent of the Cincinnati *Enquirer*, characterizes President Grant as "the smallest great man of the century," and among other proofs relates the fact that on the "day before the inauguration President Johnson wrote a note to the incoming President inviting him to ride with him to the Capitol." To this Grant did not even condescend to reply. The public will remember that in the accounts of the late inauguration proceedings particular pains were taken to note the fact that President Johnson did not participate. Here is the reason for his absence. Such is Grant.

"SUSPENSION," said Senator Sherman, in his argument for the unconditional repeal of the Tenure of Office act, "would be an acknowledgment that the law was wrong." That is precisely what it is. Nothing more nor less. It was conceived in wrong, has accomplished nothing but wrong, and it is only a perpetuation of a wrong to allow it to stand on the statute book.

BECAUSE the Sultan of Turkey has given to the widow of his late Grand Vizier a pension of $15,000 a year, in gold, it is argued that Congress should imitate the Sultan's liberality and give Mrs. Lincoln a pension of at least $5,000 a year. Real Radical logic that, but good enough to suit pension purposes.

ANOTHER INDIAN WAR.—Our Indian policy, as it is called, is showing effects in Alaska already, The Russians as long as they owned and occupied that country were at peace with the aborigines; the moment the more difficulty and bloodshed occur. Both our army and navy are involved in the matter, and according to the late dispatches, after some firing and killing, a chief was captured. So we have a new field for Indian wars, expensive to the government and lucrative to the white Indian ring. A dispatch says a good deal of bad feeling exists between these Indians and the military. Their villages are remote from the sea, and men-of-war cannot get near enough to shell them. This latter fact can hardly be regretted, as it is most probable that the bad feeling originates with the antipathies of the military. It is an abominable thought that we have only extended our dominion to the North Pole as a means of butchering the miserable people who have built their huts around it for the last thousand years. Let Secretary Borie and Secretary Rawlins look into the matter.—*Balt. Sun.*

MEDICAL COMMENCEMENT.

Thro' the kindness of a member of the Institution, we were favored with a ticket to the commencement of the Medical Department of the University of Pa., on the 13th inst., held in the Academy of Music. Our ticket admitted us to the Parquet, where we had a fine opportunity of seeing and hearing. All who have been in the Academy of music on such an occasion, will at once recall the grand and brilliant scene. We may call it a crowd, even in such a place; and every face, beaming with pleasure and interest, seemed to be set toward some attractive point. The eyes of the one hundred and thirty graduates, we know, very often dwelt anxiously on the huge pile of boquets and flower baskets on the stage, wondering who is to get them, and if *her* name was on any of them. The Germania Orchestra discoursed divinely as they can. The Stage was filled with men of note of every profession; and amid the blazing of lights, altho' it was mid-day, and the brilliant array of fashion and beauty, crowding that immense building, it was an occasion of great interest, and such as the young gentlemen who were *doctored* and *bequetted* will not soon forget. Prayer was offered by the Rev. Dr. Krauth, in clerical robes; after which the degrees were conferred by the Provost. As this ceremony was done in Latin we took it for granted that it was done right. Then came the Valedictory by Prof. Stille, and one that ought to be put in permanent form and become the "Vade Mecum" of every Medical Student. It was brilliant as well as logical, and brought down the house. His argument for the Esculapian Art in its humane and scientific development was just and conclusive; and the way he handled the naked knife against Empiricism would have created astonishment in the dissecting room. The last act was the distribution of boquets to the graduates, and which, no doubt, was exceedingly interesting to about one hundred and thirty young ladies in the assembly. The delicate compliment was, we will suppose, returned in a pleasing way in the evening; and tender memories of "the girls they left behind," will start a gentle throb now and then as they go thro' life, until they chance to find along its rugged path *a single flower* more sweet than all the rest. Good-bye, girls! Vale, Doctores!

"OLD ZION'S."

It will interest some of your readers to hear of the demolition of Zion's Lutheran Church, on Fourth and Cherry. It has served its time, and now gives place to the business demands of the age. This church is more than one hundred years old; and at the time it was built, 1776, was the largest and finest structure of that kind in North America. Ten years after it was occupied by the British army as a hospital and suffered much injury. Added fire left nothing but the walls; but it was soon refitted again and re-dedicated. The Obsequies commemorative of the death of Wa-hington were held in this church, in 1799. The congregation was a very large one, and established several branches in other parts of the city. The pressure of business forced them to sell it, and a new church, of brown sandstone, is being built on Franklin, below Vine, on the site of their old burial ground. I should have stated that this was a German Lutheran Church. The present pastor is Dr. Mann. Members of this church may be found in almost every German community, it being the mother of thousands of spiritual children.

SENSATIONAL PREACHING, &c.

The present generation, we imagine, has gotten very far from the good old Apostolic ruts. When Paul preached at Athens, the peoples' ears itched for something new, some political novelty, or sensational touch; and were astonished and indignant to hear of Jesus and the Resurrection. Now Paul would hardly get a "call" to some churches here. We have too many Athenians who want their ears tickled with funny sayings, and he couldn't do that. But such ecclesiastical monstrosities turn up occasionally, and cater to the depraved taste and mawkish sentiment of such, until the church is filled with laughter or resounds with applause. All kinds of queer texts and theatric notices are advertised in order to draw a crowd. One fellow announces that he will preach on the "Blues;" another on "Secrets," and so on. One church advertises, "good music;" and another that "no subscriptions will be taken to-day, only a basket collection." All this in one issue of a daily. What a wide departure from the simplicity of the pure age! No wonder the multitude do evil when hifalutin, mountebankism and operatic musicgo for truth and Gospel. Talmadge, the latest agony, goes to Brooklyn to run a tilt with Beecher. The prayer of the saints this side of New England is that he may always stay there.

THE OLD GREEN FLAG.

"Saint Patrick's day in the morning" dawns bright and beautiful over head, the augury, we hope, of a better day for that stricken land—The Emerald Isle. The patron saint is to be remembered with more than ordinary demonstrations. The Fenian Brotherhood, The Hibernia, the Celtic and other orders will "drown the Shamrock," in a thousand glasses, and celebrate the Irish festival with speeches, parades, music and balls. A grand rally round the "old Green Flag" will take place at the National Hall under the auspices of the Fenian Order, and addresses will be made by distinguished speakers. It is a matter of congratulation that in the last election in Great Britain the Gladstone Administration was sustained on the distinct issue of "Justice to Ireland," and in the light of this great victory they can now look forward with brighter hope to Ireland's liberty through disestablishment and reform, and add another and deeper tinge to the "old green flag." The contest which resulted in a Parliament hostile to the D'Israeli ministry, and pledged to the interests of those who have been ground down and oppressed, indicates a higher advance in Irish independence and the ultimate triumph of the principles enunciated in "the wearing of the green." In the name of St. Patrick we wish the Ould Counthry God speed in her noble struggle for Enfranchisement.

SEEING THE EDITOR.

Yes, sir, we saw him the other day, not as we used to see him when sitting in his sanctum with pen flying over the paper, and each particular hair on end, and eyes flashing political lightning, getting off those editorials which we always read in a cool place; but we spied him on Market street as we passed in a street car, and accordingly we made for him suddenly; and fearing lest he would be lost in the crowd, we rushed out of the car, and in our way out tumbled over baskets, sent hoop skirts flying, kicked men on the shins, and nearly upset the conductor. We imagine the passengers thought a policeman was after us, but he was'nt. We were after the Editor of the GAZETTE, and we brought him up at last on the corner and enjoyed a brief glance at his benign countenance. We will go thro' as much for a sight of your benevolent phiz, Brother Mengel, any day. And here is the compliment of St. Patrick's Day to you both: that your shadows and subscribers may increase. Believe me to be,

BRIEF NEWS ITEMS.

Omaha, March 18.—A telegram from Helena, Montana, reports the Indians again troublesome. Two men, Frank Leonard and J. McDonald, had some of their cattle killed by Indians, near Yellowstone, and the entire herds driven off. Thirty soldiers were sent from Fort Elies to pursue them and were attacked by about seventy-five Indians. The fight lasted one hour, and resulted in the killing of several Indians. The troops returned to the fort during the night. Seven hundred soldiers and citizens expected to start against the Indians.

Horrible Affair near Chambersburg. Three Ladies Outraged by a Negro.

CHAMBERSBURG, Pa., March 21.—On Thursday afternoon last a girl, thirteen years old, and two young ladies—all white and daughters of neighboring farmers, living within two miles of this place—were ravished by a negro. On Friday, a negro, nineteen years old, named Cain Norris, a native of Chambersburg, was arrested and is now confined in jail as the perpetrator of these outrages, and there seems but little doubt of his being the guilty party. The excitement in the community is intense. On Friday night an effort was made to take Norris from jail with the intention of hanging him. No less than eight hundred people gathered about the building, but, speeches having been made by a number of prominent citizens, the mob was induced to disperse. The prison has been since guarded by a *posse comitatus*, summoned by the Sheriff. The young ladies outraged are daughters of three of our most respectable farmers.

CREDIT.—"A wise provision by which constables and sheriffs get a living."

Advertising is said to be "the extension of your shop front in the newspapers."

Schellsburg presents a clean Democratic sheet as to the result of the election on Friday last. Good, say we.

The vote for Senator, at the Radical primary election, was as follows:—Mullin, 812; Washabaugh, 433; Nycum, 212.

Has the Washburne, or the Grant family, no relatives in Bedford county? Look up the papers and apply for office at once. It works like a charm.

The railroad should not be forgotten. Subscriptions will be received at any time. Everybody is interested and everybody should work for its success. Agitate, *Agitate*, AGITATE!

The Fulton *Republican* is seriously afflicted with "hog on the brain." We have long thought that the disease would assume a virulent form.

A number of our exchanges are in favor of a premium on crow scalps. We object. The premium on *black* is too confoundedly high already. The people can't stand more of it.

All the best made and latest styles boots and shoes are to be had at Irvine's, No. 2 Anderson's Row. Also queensware, glassware and groceries, notions, &c.

The Hollidaysburg *Standard* thinks that a railroad to this place would set our citizens crazy. If we ever get a railroad, Bedford won't, like Hollidaysburg, long remain a "one horse town."

It is a lie that the Democracy at their nominating meeting, in this borough, "stuffed the ballot-box and voted again and again." Nobody but a cowardly, contemptible blacksnake would make the assertion.

"The thunder last week woke up the snakes in this neighberhood," &c.—*Inquirer*.

The Democratic thunder of last Friday, "in this neighborhood," was so severe that the blacksnakes were compelled to hunt their filthy holes. It is not always profitable amusement to "stir up the animals" with a stick.

Cadwalader Evans, Esq., a highly respectable citizen of Cumberland Valley tp., died last week. Mr. Evans was elected County Commissioner some years ago, and performed the duties of the office with fidelity. He bore the reputation of being an honest, upright man.

GIVE US NOTICE.—Those of our subscribers who intend changing their residence on the coming first of April, will oblige us by sending us timely notice where they want their papers directed to. A little care in this respect will prevent mistakes and save trouble.

SENATORIAL.—The Radical convention, on Monday, selected G. S. Mullin as Bedford county's choice for State Senator. Daniel Washabaugh, the "old war horse" of radicalism, was slain in the house of his friends. Daniel went into the lion's den with all confidence of subduing the beasts, but the lions proved too many for him. "Alas, poor Yorick!"

On Sunday, according to the almanac makers, the sun "crossed the line." Old Sol must have had a rough time of it, for, on Monday and Tuesday, we had the equinoctial storm, which brought us a large quantity of snow. The merry-making sleigh bells are again heard, and all without has the appearance of stern winter.

RADICAL NOMINATIONS.—On Monday last the Radicals held their nominating convention in the court house, and placed the following ticket in the field:—Senator, G. S. Mullin; Legislature, J. H. Longenecker; Prothonotary, J. W. Lingenfelter; Sheriff, William Dibert; Treasurer, William Phillips; Commissioner, James Fink; Poor Director, Emanuel J. Diehl; Auditor, John P. Williams; Coroner, Dr. A. S. Smith. Chairman County Committee, D. F. Mann; Secretary, S. J. Jordan.

Here is an excellent set of pins to be knocked down by the Democracy next fall. Our enemies have furnished us the clubs with which we will knock them "clear out of sight" in October. Look out for thunder, boys!

TRUE.—An exchange gets up the following: "The boy who lurks and lounges about with a gang annoying families, or who indulges the wicked habit of insulting persons who pass by his lounging place, or in assaulting people who give no offence, or who thinks it the proper sort of a thing to take a drink when he is out for a "spree" at night or on Sunday, is in constant danger of just the kind of rows and broils that end in bloodshed and murder. At one end of his career is this habitual lounging, loafing, disorder, dissipation or ruffianism, and at the other, if he keeps on in the same path, is the prison or the gallows."

THE VICTORY IN HARRISON—Harrison township covered herself with glory by electing the whole Democratic ticket on last Friday, by majorities ranging from 15 to 25. Considering that Radicalism has reigned there for several years, the result is the more gratifying. Article XV don't take well in Harrison.

BEDFORD TOWNSHIP O. K!—The Democrats of Bedford township, acquitted themselves creditably on last Friday, by electing the whole ticket to the tune of 80 majority, and upwards. This was done by but a part of the force in this Democratic stronghold. Next fall Bedford tp. will give an old-fashioned majority against Radicalism. Mark it!

BEDFORD BOROUGH ELECTION.—*Radicalism Routed.—Article XV Annihilated.*—The election in this borough, on Friday last, resulted in an overwhelming success for the Democracy. For this grand triumph over radicalism we are indebted to the ever faithful Democracy of this borough, and to the commendable conduct of the conservative men of the opposition, who could no longer swallow the strong pills administered by a Radical Congress, and who helped us achieve this glorious victory. We annex the result:

OUR young friend, J. Harry Hutten, has again returned to Philadelphia, and is at his old place, with A. A. Shumway & Co., wholesale manufacturers and dealers in boots and shoes, 221 Market st. We can heartily recommend this house to our Bedford county friends who deal in boots and shoes. We have had the pleasure of meeting the members of this firm and know them to be a genial set of gentlemen, who know the wants of their patrons, and have on hand a splendid stock of all styles of boots and shoes.—Harry says he still has time and will be pleasd to receive orders and meet his friends when they go to the city. Being a practical shoemaker, he fully understands his business, and will fill orders to the entire satisfaction of all who may favor him with a call. Give the boy a trial. He can show you goods to please you.

HINTS TO NEWSPAPER CORRESPONDENTS.—The following suggestions, of the Philadelphia *Chronicle*, all writers for the press will do well to adopt and follow:

Correspondents will please write carefully and legibly, on but one side of the paper.

We require the name and address of each contributor, not necessarily for publication, but as a guarantee of the good faith of the writer.

To secure insertion, we give for their guidance, in addition to these requirements, the following rules:—

Rule I. Condense.

Rule II. *Condense.*

Rule III. CON-DENSE!

The inspiring use of this Patent Condenser will probably be the means of getting much valuable matter into print, besides economizing the time and patience of the editor.

"Tall oaks from little acorns grow,
Large streams from little fountains flow."

Seven years ago the Plantation Bitters were but little known. To-day there is not a nook nor a corner of our land where they are not found and used.—The sale has reached the enormous number of five millions of bottles annually, and it is constantly increasing. It only shows what can be done with a really good medicine, and a systematic course of making it known. Perhaps no medicine in the world was ever so deservedly popular as the Plantation Bitters. Go where you will, among the rich or poor, and you will always find these Bitters in use. Their merit has become an established fact, and we cordially recommend them in cases of dyspepsia, loss of appetite, chills and fever, headache, &c., &c.

PERIODICALS.

THE LADY'S FRIEND FOR APRIL.—"The Fortune-Teller" is the subject of the fine steel plate engraving which leads off the last number of this charming monthly. This is followed by a handsome and refined steel plate of the latest Paris fashions. Then we have a striking picture of an Avalanche among the Alps, followed by a number of engravings devoted to ladies and children's dresses, bodies, fancy work, etc. The music for this number is the popular song, "Pulling hard against the stream." As to the literary contents they are deeply interesting as usual. Published by Deacon and Peterson, 319 Walnut street, Philadelphia, at $2.50 a year.

IN the April "Riverside," Hans Andersen sends a special greeting to his young friends in America. Porte Crayon, who has a portfolio full of stories and pictures about old Virginia, reappears here in his serial, "The Young Virginians." Dr. Abbott tells a big fish story. Mr. Benjamin, begins a series of rambles about Constantinople. Also, other interesting stories to entertain and instruct its young readers. Published by Hurd & Houghton, New York. $2.50 a year.

THE NURSERY, for April, is a perfect little gem, and will not fail to make its young readers happy. No father or mother, after having examined *The Nursery* will fail to subscribe for it and put it in the hands of their children. Only $1.50 a year. Address, John L. Shorey, 13 Washington st., Boston, Mass.

VEGETABLE STAINS.—The best method of removing stains from linen and cotton frabrics, produced by spilling wine or vegetable juices, consists of moistening the surface affected (previously wetted) with a solution of hypo-sulphate of soda dissolved in hot water, and then adding on the point of a knife a little pulverized tartaric acid, and rubbing this well in. After the stain has disappeared the cloth may be washed out in lukewarm water, and when dry no trace of the stain will remain.

AN EXCURSION CAR.—The hotel car that is designed to accompany the first through train from San Francisco to the East has been completed at the Central Pacific shops. It is thus described by a California exchange:

"It is divided into a large number of compartments—one lined with zinc for meat, several for groceries, vegetables, &c.; one with a wire door for live fowls, large tanks for fresh water, all arranged as neatly and compactly as can well be imagined. At one end of the car there are several berths for the accommodation of the train hands.—The car is strongly built, and having both rubber and steel springs is probably one of the easiest riding in the State."

RAVAGES OF THE YELLOW FEVER.—Letters received from Arica and Tacna, South America, give most startling accounts of the ravages of the yellow fever and typhus. In Arica the people are dying off at the rate of thirty and forty per day. The only druggist in the place has been carried off, and no medicines are to be obtained. Ten dollars a day has been offered for nurses, and none could be obtained; and should the fever continue much longer there would not be left persons enough to bury the dead. The heat is represented to be almost insupportable, and the stench from the scorched seaweed and kelp upon the beach was frightful. In Tacna the typhus appears to be trying to outdo the fever at Arica, the mortality being in about the same proportion. All those who can afford it, have left the city for the upper part of the valley, so that the place is almost deserted. The stores are all closed, and everything left to chance.

THE MONARCHY FOR SPAIN seems now to be the settled determination of at least the temporary government of that country. Under the monarchical influences of the provisional government of three the Constitutional Cortes was elected. The Cortes in turn made one of the three the chief of the State, and continued others as ministers in power, and now we see by cable telegram that in the Cortes, on Tuesday, General Prim, minister of war, announced to the deliberate body that the monarchists were prepared with their candidate for the throne, and that his name would soon be made public.

On the 9th inst., as Richard Smith, of Juniata township, Perry county, was arranging the sights of his gun, the gun, laying accross the table, his little boy by some means raised the hammer, and letting it slip discharged the piece, part of the contents entering the head of a little daughter at the other end of the table, causing her death next day.

The deceased was the sister of the late John Keefe, and formerly resided with her parents, in Bedford, where she has still a nephew and nieces who dearly cherish her memory. She was very much esteemed here for her piety, and particularly for her devoted attachment to her aged parents, on whom she faithfully waited, until death had closed their eyes. She died, as she had lived, a good christian and is now gone to receive the reward of "the good and faithful servant who has entered into the joy of the Lord."

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

G. V. N. ANDREWS,

N. B.—For the benefit of our Agents we have arranged with parties who have goods suitable for Sewing Machine Agents to sell. We will send BOOK OF SAMPLES and full particulars on receipt of one red stamp. Address G. V. N. ANDREWS, General Agent, Detroit, Mich. nov6y1

OUR NEW FAMILY SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. Or communications may be addressed to

NATURE'S GREAT RESTORER.

SCHEETZ'S
CELEBRATED
BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results. It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

THE GREAT

ZINGARI BITTERS.

A Safe Blood Purifier,

A Splendid Tonic,

A Pleasant Beverage,

A CERTAIN CURE

AND

PREVENTIVE OF DISEASES.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician DR. CHROPSUS, who, after years of trial and experiment, discovered the Zingari Herb—the most remarkable vegetable production, the earth, perhaps, has ever yielded—certainly the most effective in the cure of disease. It, in combination with the other valuable properties of which the Zingari Bitters is composed, will cure

Dyspepsia, Fever and Ague, Bilious Fever, Cholic, Colds, Bronchitis, Consumption in its first stage, Flatulency, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness &c., &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S
HAIR VIGOR,
FOR THE RENOVATION OF THE HAIR.
THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,
For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or GREEN SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

The Waters' Pianos are built of the very best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eraptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Miscellaneous.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

OUR NEW FAMILY SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. NATURE'S GREAT RESTORER.

SCHEETZ'S
CELEBRATED
BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician DR. CHEOPSUS, who, after years of trial and experiment, discovered the Zingari Herb—the most remarkable vegetable production, the earth, perhaps, has ever yielded—certainly the most effective in the cure of disease. It, in combination with the other valuable properties of which the Zingari Bitters is composed, will cure

Dyspepsia, Fever and Ague, Bilious Fever, Cholic, Colds, Bronchitis, Consumption in its first stage, Flatulency, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness &c, &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S
HAIR VIGOR,
FOR THE RENOVATION OF THE HAIR.
THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,
For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or Green SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the very best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Miscellaneous.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver
